GOV. HUGHES GOT ROOSEVELT IN

It Was He Who Urged Colonel to Make Statement on the Cobb Primary Bill.

MAY GET INTO HARNESS AGAIN

His Decisive Defeat at Albany Has Created a Situation That May Force Him To.

New York, July 1.-Although silent on his arrival here, Col. Roosevelt told on the train while coming from Boston how he had been drawn into the direct primary fight.

I had fully made up my mind not to interfere in any way with legislation pending before the extraordinary session of the legislature," he said, "until I met Gov. Hughes. He urged upon me the importance of making a statement of how I stood on the Cobb primary bill. He told me that silence on my part might be construed as indicating I was opposed to it."

"What have you to say regarding the defeat of the primary bill?" the colonel was asked.

defeat of the parmary bill?" The colonel was asked.

"Nothing now," he replied. "It's not my way to talk of such things."

"Then you will do nothing?"

"I don't like to talk of my plans," he repeated.

Col. Roosevelt explained clearly what his attitude toward Gov. Hughes.

"It's this way about the governor," he said. "It had been reported that I had directly asked him to resign from the supreme court and run again for governor. That report was manifestly false. I could not make such a request of a man.

"The case was somewhat the same when Root left the cabinet. I hated to see him go. I could advise with him and tell him how I felt, but I could not tell him what he should do. I believe Gov. Hughes should be the ideal candidate for the governorship, but I candidate for the governorship, but I could not so reflect upon the dignity of the supreme court as to urge him to give it up."

ROOSEVELT MAY GET INTO HARNESS AGAIN

GET INTO HARNESS AGAIN

Albany, N. Y., July 1.—Theodore Rooseveit is to be asked to get back in the harness again. His decisive defeat in both the senate and the assembly by the Republican organization has created a situation that may force him to take an active part in the politics of both state and nation.

Almost before the gavel had sounded the end of the special session of the legislature today, the members who stood with him in the lost cause of primary legislation were planning to make him leader of the party of the state, whether he wants to be or not. They point to the fact that once he plunges into the contest in the state, he will be involved in the politics of the nation, as New York is expected to play a prominent part in the congressional elections of this fall.

Less than two hours after the organization men had started up Capitol hill this morning they were victorious and were coming down again. The Cobb direct nomination bill, known as the "Roosevelt bill," was put to death with 25 votes for it to 19 against, 26 votes being necessary for it to have passed. The personality of Roosevelt failed to shake the set purpose of the organization and Roosevelt sustained one of the few defeats of his career.

nor an indication that his power is on the wane, those who stood with him say.

They had a majority of the Republican votes in both branches of the legislature and it was only by a combination with the Democrats that the organization was able to win.

Assemblyman Green said he had already begun preparations to carry the fight into the state convention.

Gav. Hughes, while he will not talk publicly, is known to have taken a hopeful view of the situation.

Lloyd C. Griscom, chairman of the New York county Republican county committee to which Col. Roosevelt sent his telegram indorsing the Cobb bill with its amendment had this to say.

"The first thing of all that stands out is of national importance. It is the consolidation of three such men as Taft. Roosevelt and Hughes. This situation has brought about such a condition and it would be hard to imagine a situation more hopeful for the party both in state and nation.

"The prospects of the party next fall would be seriously affected if the action of the legislature had been the expression of the opinion of the majority. The point I wish to emphasize is that it was the action of the minority of the Republicans who bolted the caucus in the senate and joined the Tammany delegates in a situation where broad party issues were lost to view and nothing but personalities counted."

Speaker Wadsworth, who has led the fight for the organization without apologies to anyone, said he had nothing to

Asked as to his views of the probable effect of the legislature's action on the political situation, he replied that it was too early to speak on that rount.

Garfield, former secretary of the interior, wrote a letter defining his attitude on progressive Republicanism.

"It is most timely to consider what the progressive movement means and what action it calls for," wrote Mr. Garfield. "Those who seek to drive the progressives out of the Republican party are blind to the conditions and needs of our people. Such partisans would save the word but kill the spirit. USE OF POWER TO SUSPEND RATES REPUBLICANISM

Interstate Commerce Commission Will Invoke It Only in Exceptional Cases.

KNAPP SEES THE PRESIDENT

Discuss Matter at Length-New Law Never Intended to be Used As a Club.

Beverly, Mass., July 1.-Prest. Taft had a long talk today with Chairman Knapp of the interstate commerce commission regarding the administra-

Knapp of the interstate commerce commission regarding the administration of the railroad rate law.

At the conclusion of the interview it was made plain that the added authority given to the commission by the new statute is not to be used arbitrarily to hinder the railroads in the conduct of their legitimate business. The power to suspend new rates, probably the most direct weapon placed in the hands of the commission, is to be used only in exceptional cases. Chairman Knapp told the president the commission had already refused an application under the new law for a suspension of increased rates on horse vehicles and automobiles.

He said there was nothing on the face of things to show the new rates were unjust or unreasonable.

The interstate commerce commission will be applied only to rates when a preliminary hearing gives indication that they are excessive.

From time to time since the new

From time to time since the from time to time since the new law went into effect there have been indications that some of the big railroads have been considerably worried as to the extent and the manner in which the rate regulating clauses of the new law would be employed by the commission. Stock manipulators the commission. Stock manipulators in Wall street, the administration had been informed, were trying to trade upon this doubt.

NEW LAW IS NOT A CLUB.

NEW LAW IS NOT A CLUB.

It can authoritatively be stated that it was never intended that the new law should be used as a club. The commission will not "run amuck" and will do nothing to jeopardize the interests of investors.

Mr. Taft was pleased to find that the commission already had its plans well mapped out and that its views of the new statute coincide thoroughly with those of the framers of the bill.

It is felt it would be a great impediment to the railroads to have every new rate suspended and put through the II months' period of determination as to its reasonableness. Chairman Knapp discussed this feature of the law with the president and cited the refusal of the commission to suspend the automobile and vehicle rates as an indication that the power of suspension is not to be used indiscriminately.

criminately.
Further information regarding the interview between Prest. Taft and Col. Roosevelt yesterday tended to confirm the reports of last night that the visit was almost wholly of a personal and

was almost wholly of a personal and social nature.

Prest. Taft today expressed regret to several of his callers over the defeat in the New York assembly of the Cobb direct primary bill which was advocated by Gov. Hughes and publicly indersed by Col. Roosevelt.

Prest. Taft's vacation is not to begin until after his strenuous doing of July 4, when he will motor into Boston and stop at several cities on the way. When he is through with this engagement he is to go into seclusion for 10 days. Mr. Taft will summon his cabinet officers from time to time as he reaches their affairs. The navy and the interior departments are first to be considered. The interior department matter under consideration is connected with the expenditure of the \$20,000,000 reclamation fund.

ment. The new regulations will take effect Aug. 1.

They abolish the present customs certificate as to drawback. They safeguard the revenue by providing for marking all merchandise, packages on which drawback should be claimed and for withholding payments on debenture certificates until the receipt of certifi-cates from the port of entry showing payment of the duty. The new scheme payment of the duty. The new scheme practically will extend the benefits of the law to many people who, because residing in the interior and at a distance from the customs house, have found it impracticable to obtain such

certificates.
Similar regulations are provided for shipments by mail, except that no original certificates are required on less than \$10 worth of goods. Prohibition against importing cigars and cigarettes continues, but they may be imported by freight or express if packed in boxes of not over 500 in each box or not less than 3,000 in a single package. Inventories will be required for goods over \$100 in value.

AIRSHIP SPEEDS AWAY WITHOUT AVIATOR

Kansas City, Mo., July 1.—In pre-liminary flights at Elm park today the biplane of Charles, F. Ward, who is to give exhibition flights at the park July 4, ran away. With nobody at the wheel it soared independently across the race course for 290 yards at a speed of 20 miles an hour, crashing into the grand stand.

miles an hour, crashing into the grand stand.

Willard was cranking his wheel preparatory to flight. James McCarthy, a park gardner, who had seen pictures of the biplanes, stood by, very excited. "Hold it whilel get in, will you?" the aviator asked. McCarthy acquiesced immediately, looking down the track for a clear place to run if necessary. The propeller began to whirr at a terrific rate. McCarthy lost his head. He fled. So did the biplane. Crossing the embankment of the course, Willard was shaken off and sprawled on his face in the grass. The machine arose a little and steered straight for the grand stand. It was slightly damaged. Willard says the machine will be repaired and ready for action within 24 hours.
